

Material Control and Accountability Specialist (MC&A Specialist)

TerranearPMC, LLC (TPMC), a national environmental consulting and remediation firm, is seeking a Material Control and Accountability Specialist to support company projects. This position will be based at the project location, outside of Pittsburgh, Pennsylvania. Relocation assistance may be provided.

Essential Duties and Responsibilities:

The Material Control and Accountability Specialist (MC&A Specialist) is responsible for assisting in the development and implementation of the site's MC&A Program and implementing procedures to address all relevant elements in 10 CFR 74, *Material Control and Accounting of Special Nuclear Material*, applicable NRC regulations (NUREGs) and Regulatory Guides, as well as industry standards. The MC&A program will include all MC&A elements related to inventory management, loss detection, measurement of special nuclear materials (SNM), nuclear material control, and reporting requirements. This position serves as the primary backup for the site's Nuclear Material Accountability Officer (NMAO).

The MC&A Specialist will:

1. Assist the NMAO the ongoing development, review, and maintenance of the site's MC&A program (i.e., procedures, audits, inspections, reporting requirements, training.),
2. Support the site's MC&A database system, including data entry, report generation, and MC&A related reporting requirements,
3. Support the completion of MC&A related activities, such as, physical inventories, tamper indicating device program, measurement control oversight, and the MC&A audit program,
4. Serve as backup to the NMAO. To include, when serving as the site's NMAO:
 - 1) interfacing with the Contractor's physical security coordinator and the Contracting Officer for routine communications regarding site SNM inventory status and MC&A related event reporting, and having authority to stop work if the SNM inventory is compromised, including indication of potential loss, theft, or diversion of SNM.

Candidates will be evaluated primarily based upon knowledge and related experience as assessed by the hiring team and its applicability to this project.

Minimum qualifications required for consideration of this include:

- Bachelor's degree in physical science, engineering, mathematics, computer science, or accounting that included 24 semester hours in physical science and/or related engineering science, or

Minimum of three (3) years' experience in the development and/or implementation of MC&A Programs.

Job Type: Full-time

Pay: \$75,000.00 - \$125,000.00 per year

Benefits:

- 401(k)
- 401(k) matching
- Dental insurance
